PLANT AND SOIL

Contents Volume 295 Nos. 1–2 June 2007

Regular Articles

Role of roots in differences in seed cadmium concentration among soybean cultivars—proof by grafting experiment
M. Sugiyama, N. Ae and T. Arao 1–11

Effects of molybdenum on ascorbate-glutathione cycle metabolism in Chinese cabbage (*Brassica campestris* L. ssp. *pekinensis*)
Z.J. Nie, C.X. Hu, X.C. Sun, Q.L. Tan and H.E. Liu 13–21

Germination and seedling establishment of two annual grasses on lichen-dominated biological soil crusts
L. Deines, R. Rosentreter, D.J. Eldridge and M.D. Serpe 23–35

A proteomic screen and identification of waterlogging-regulated proteins in tomato roots
N. Ahsan, D.-G. Lee, S.-H. Lee, K.-W. Lee, J.D. Bahk and B.-H. Lee 37–51

Regulatory effects of soil properties on background N_2O emissions from agricultural soils in China
J. Gu, X. Zheng, Y. Wang, W. Ding, B. Zhu, X. Chen, Y. Wang, Z. Zhao, Y. Shi and J. Zhu 53–65

Nitrogen and carbon isotope responses of Chinese cabbage and chrysanthemum to the application of liquid pig manure
S.-S. Lim, W.-J. Choi, J.-H. Kwak, J.-W. Jung, S.X. Chang, H.-Y. Kim, K.-S. Yoon and S.-M. Choi 67–77

Natural ^{15}N abundance of soil N pools and N_2O reflect the nitrogen dynamics of forest soils
K. Pörtl, S. Zechmeister-Boltenstern, W. Wanek, P. Ambus and T.W. Berger 79–94

Effects of sand burial disturbance on seedling growth of *Nitraria sphaerocarpa*
W.Z. Zhao, Q.Y. Li and H.Y. Fang 95–102

QTL mapping of root aerenchyma formation in seedlings of a maize × rare teosinte "*Zea nicaraguensis*" cross
Y. Mano, F. Omori, T. Takamizo, B. Kindiger, R. McK. Bird, C.H. Loaisiga and H. Takahashi 103–113

Decreasing prevalence of rhizosphere IAA producing and seedling root growth promoting bacteria with barley development irrespective of protozoan grazing regime
M. Vestergård, L. Bjørnlund, F. Henry and R. Rønn 115–125

Biological nitrogen fixation and nitrogen and phosphorus budgets in farmer-managed intercrops of maize–pigeonpea in semi-arid southern and eastern Africa
J.J. Adu-Gyamfi, F.A. Myaka, W.D. Sakala, R. Odgaard, J.M. Vesterager and H. Høgh-Jensen 127–136

Spatial heterogeneity of soil nitrogen in a subtropical forest in China
L. Wang, P.P. Mou, J. Huang and J. Wang 137–150

Foliar decomposition in a broadleaf-mixed Korean pine (*Pinus koraiensis* Sieb. Et Zucc) plantation forest: the impact of initial litter quality and the decomposition of three kinds of organic matter fraction on mass loss and nutrient release rates
X. Li, S. Han and Y. Zhang **151–167**

Natural occurrence of *Azospirillum brasilense* in strawberry plants
R.O. Pedraza, J. Motok, M.L. Tortora, S.M. Salazar and J.C. Díaz-Ricci **169–178**

Soil water availability effects on seed germination account for species segregation in semiarid roadslopes
E. Bochet, P. García-Fayos, B. Alborch and J. Tormo **179–191**

Comparison of two ^{15}N labelling methods for assessing nitrogen rhizodeposition of pea
S. Mahieu, J. Fustec, M.-L. Faure, G. Corre-Hellou and Y. Crozat **193–205**

Combined effects of partial root drying and patchy fertilizer placement on nutrient acquisition and growth of oilseed rape
L. Wang, H. de Kroon and A.J.M. Smits **207–216**

Season mediates herbivore effects on litter and soil microbial abundance and activity in a semi-arid woodland
A.T. Classen, S.T. Overby, S.C. Hart, G.W. Koch and T.G. Whitham **217–227**

Chaotropic effects on 2,4,6-trinitrotoluene uptake by wheat (*Triticum aestivum*)
K.C. Makris, R. Datta, D. Sarkar, K.M. Shakya, D. Pachanoor and P. Das **229–237**

Carbon, nitrogen and phosphorus in volcanic soils following afforestation with native birch (*Betula pubescens*) and introduced larch (*Larix sibirica*) in Iceland
E. Ritter **239–251**

Assimilation dynamics of soil carbon and nitrogen by wheat roots and Collembola
T. Larsen, A. Gorissen, P.H. Krogh, M. Ventura and J. Magid **253–264**

Dissolved organic carbon affects soil microbial activity and nitrogen dynamics in a Mexican tropical deciduous forest
N.M. Montaño, F. García-Oliva and V.J. Jaramillo **265–277**

Benefits of alternate partial root-zone irrigation on growth, water and nitrogen use efficiencies modified by fertilization and soil water status in maize
F. Li, J. Liang, S. Kang and J. Zhang **279–291**

Erratum

Is it possible to manipulate root anchorage in young trees?
H. Khuder, A. Stokes, F. Danjon, K. Gouskou and F. Lagane **293–295**
